Parkway Utility District Sewer Use Ordinance

The sewer system in Parkway needs your help. Fats, Oils and Grease from homes are causing the system to build up with grease which can cause overflows. The grease congeals on sewer pipes, which prevents wastewater from flowing correctly.

This is an actual sanitary sewer overflow caused by an oil and grease blockage.

Discharging oil and grease into sewer pipes is 100% preventable by taking steps shown on the back of this flyer.

For further information, contact Parkway Utility District operator, Municipal District Services, at 281-290-6500.
